- COR falsifies DD250 for receipt of goods or services.

- Contractor submits a claim for a progress payment indicating a specified amount of work had been completed on a project, when in fact the project is behind schedule and the work has not been completed.
- Individual signs contract and finance documents claiming to be a representative of a contractor, thus allowing the individual to receive unauthorized payments on numerous contracts.

The Contractor then prepares the proposals as requested.
- Government representative instructs a contractor to submit invoices for materials which have not been received on a contract. The Contractor then submits the invoices and receives payment

- In an effort to obtain concessions from the candidates, the Contract Officer tells candidate 'A': "Your price is too high, candidate 'B' has offered to do the job for \$50,000 less than you have."
- Contract Officer later tells candidate 'B' that 'B's' proposal is well-liked, but could be improved by incorporating a process contained in candidate 'C's' proposal.
- Contracting Officer then explains this process to candidate 'B'.
- Both these disclosures constitute unauthorized disclosure of confidential information.

# Insufficient Delivery of Contracted Items

*Develop America's Airmen Today ... for Tomorrow*

- Contractor under two separate contracts to deliver 10,000 ballistic vests and 540 ballistic vests, only delivers 10,000 vests.

*Develop America's Airmen Today ... for Tomorrow*

- Contractor increases profits by providing goods or services that do not meet contract specifications
- Such action is often difficult to detect because materials omitted from end products are not readily identifiable
